WeCo campaign!

In an effort to preserve the environment for future generations, Dormy Inn Hotel group, which offers approximately 8,500 rooms all around Japan (as of August 2015), provides room cleaning service upon request for our guests who are staying two or more nights.

Guests may request cleaning service at any time.
We will only clean dustbins and ashtrays when no request is made.

More than 9,100 toothbrushes are disposed of daily when our hotels are fully booked!

When traveling, feel the comfort of your own home and the pleasure of every season at Hotel Dormy Inn.

We sincerely hope that our guests will be able to recover from the fatigues of work just as they would when arriving at their own homes after a long day of work or leisure, relaxing and unwinding as usual in a clean, comfortable room with access to a refreshing onsite spa, all while enjoying your travel and meals paired with local specialties. Our goal is to be a "business hotel that feels like a second home," a place where travelers meet with the ultimate in hospitality.

*A public spa may not be available at all of our hotels.
*All images are for illustrative purposes only.

Onsen-quality public spa

Instead of the conventional modular bathtub usually available at business hotels, here you can relax and stretch out your arms and legs in one of our public spas featuring the quality of a hot spring.

Natural hot spring spa

Our mission is to provide the ultimate relaxing experience for our guests. That's why we contributed our expertise and know-how to create a public spa at our hotels. Enjoy our onsen-quality public spa, a truly unique experience for a business hotel.

Enjoy onsen culture and beyond

We hope that our guests can enjoy rich culture and the beautiful changing of the seasons in Japan through our onsen-quality public spa, with a wide selection of amenities and security. The "morning fruit bath" is another specialty of Hotel Dormy Inn, in which guests can enjoy not only in the hot spring spa but also in a regular public spa.

A laundry room is available at our hotels; thus guests no longer have to carry a heavy load of luggage. This would also be of great help to guests who unexpectedly have to extend their stay.

Rooms that feel like a second home

Guests can take off their shoes, change into casual room wear provided for their use, and even lie down on a traditional Japanese-style tatami floor or on a Japanese-style futon mattress.

Bright lighting and high-speed internet connection

We chose fluorescent ceiling light instead of dim lighting, which is usually used in hotel rooms, so that guests can read or work on a computer like just as they would do at home. Also available is a high-speed LAN and a user-friendly pole set up for hanging clothes for home-like comfort.

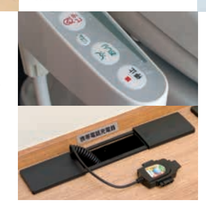
Enjoy time at your "second home" with carefully selected amenities

Sterilized slippers and casual room wear are provided for your use in your "second home." You no longer have to feel embarrassed going to the hotel restaurant in a cotton yukata kimono. We also provide a soft duvet, instead of ordinary hotel bedding, which many guests have claimed to be uncomfortable, so that a sound sleep can be enjoyed until morning.

"Feels like home"

A variety of articles for daily use, such as antibacterial deodorizer and battery chargers for a wide range of cellphones, have been carefully selected and made available for guests in each room.

*The selection varies at each hotel.



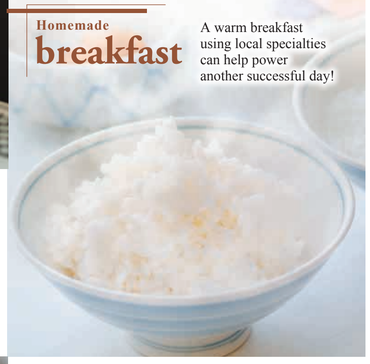
Anti-flu measures taken during the winter

Anti-flu measures have been introduced to prevent the spread of the flu virus during the winter season so that guests can use the facilities with a sense of security.

1. We disinfect our rooms using "Hurricane," a powerful antibacterial sprayer.
2. We have installed additional "MAGIC BALL" air purifiers.
3. We have installed electric humidifiers or "misty-bouquet" natural humidifiers.

Homemade breakfast

A warm breakfast using local specialties can help power another successful day!



Breakfast using local specialties!

We proudly offer an extensive selection in our delicious, homemade breakfast menu using local specialties.

A midnight ramen snack

How about a bowl of delicious ramen for a midnight snack?
Our ramen noodles are made based on know-how acquired from our restaurant business and thus offer the same great taste as our restaurants.
