

The Kagawa Museum is a comprehensive museum that combines the functions of both a history museum and an art museum. It is on the site of Takamatsu Castle, located in a cultural and historical area overlooking the Seto Inland Sea to the north and Yashima to the east.

As well as the "History Exhibition Room", which introduces the history of Kagawa, and the "Kukai Room", which traces the life and achievements of Kobo-Daishi Kukai, visitors can view various thematic exhibitions centered on the museum's collection, including 20th century art and works by world-famous artist Isamu Noguchi and other artists associated with Kagawa.

Collections
